

Xi Cool Optimus

The wine cellar in the wine cabinet.

The **Xi Cool Optimus** wine cabinet combines stylish design, classic presentation and exceptional lighting with high-quality technology. This premium wine cabinet offers the ultimate wine experience and the highest quality while ensuring the safety of valuable bottles. The temperature of the cabinet can be set either for immediate serving or for a "cellar mode" that turns the cabinet into its own little wine cellar with optimal storage temperature. The cabinet is based on the conditions of a natural wine cellar.

The **Xi Cool Optimus** creates an impressive wine atmosphere both in the private and in the gastronomic area and attracts everyone's attention with its diverse presentation options. The classic wooden fittings give it the flair of a traditional wine cellar. The cabinet holds up to 218 standard bottles and can be set up as a single-zone wine cabinet for red and white wines, or as a multi-zone wine cabinet to keep bottles at the perfect serving temperature. With an elegant black structure on the sides and a thermal glass door that gives the impression of a high-gloss black door frame, the cabinet impresses with its stylish design. The UV protected glass door protects the bottles from harmful UV light, while the LED light on the top and sides of the door allows for a clear view of the wine collection inside. The brightness of the LED light can be adjusted in several stages to create the desired mood:

- Space for 218 bottles
- Elegant thermal UV-protected full glass door with integrated handle
- Natural white, dimmable LED lighting that illuminates and highlights bottles throughout the cabinet
- Powerful, efficient inverter compressor cooling technology
- Temperature between 5 °C and 20 °C, single and multi-zone mode selectable
- Equipped with a special design wine rack system with a presentation module, can be modified in many ways or fitted with pull-outs, etc
- Activated carbon filter
- Anti vibration
- Lock
- Standard door hinge on the right, left can also be selected when ordering, cannot be changed later
- Energy consumption 195 kWh/annum
- Ambient temperature 10-43°C
- Noise level 39 dB
- Dimensions in cm: H: 194 W: 70 D: 76.8, weight 132 kg
