

Xi Cool Pro

The new generation of wine climate cabinets.

High-quality wines have to mature. However, there are several important aspects to be considered. The wine should be protected from sunlight and stored under constant temperature between 10° to 12°C and a humidity of over 50 %. Vibrations should be avoided. To protect wine against/from oxidation, it should be stored horizontal, so that the cork is always moist, and no additional oxygen might get into the bottle. The air bubble in the bottle should be kept at the smallest space to reduce the contact with oxygen to a minimum. **Xi Cool Pro**, the new generation of wine climate cabinets, has been developed to consider all these requirements for an optimal wine storage. Equipped with UV resistant insulation glass and two individual temperature zones the **Xi Cool Pro** guarantees optimal user comfort. With the constant humidity of over 50 % and the included fresh-air active carbon filter the wine matures perfectly. The specially developed, low-vibration compressors ensure an ideal storage. Equipped with the patented interior of **Xi Cool Pro** an extraordinary wine climate cabinet has been created to meet the high expectations of any wine lover.

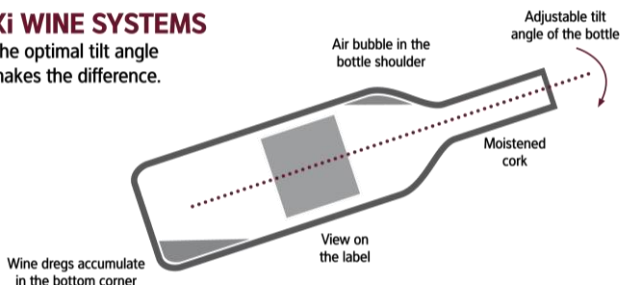

The patented X-idea:

- Perfect, adjustable tilt angle for all bottles:
 - Moistened cork at any time, air bubble in the bottle shoulder → Long-term storage without loss of quality
 - Wine dregs accumulated in the bottom corner → Easy to decant without waiting
- Perfect overview: View on the labels to avoid extensive searching
- Efficiency:
 - Up to 130 direct accessible bottles plus 40 bottles bulk storage
 - Simple stocktaking
- Universal system: suitable for 99 % of all bottle types & sizes (until 6 litres)
- Modular principal: adjustable and expandable according to (changing) needs; flexible, combinable accessories

Xi WINE SYSTEMS

The optimal tilt angle makes the difference.

PRODUCT INFORMATION

Technical details:

- 2 temperature zones individually adjustable between +5°C and +20°C
- Digital LCD control inside
- Air circulation cooling, fresh air supply through activated carbon filter
- Humidity regulation (>50%), additional ventilation
- LED interior lightning, permanently activatable / dimmable
- Optical and acoustical warning signals in case of failure
- Product dimensions:
H1920 x W700 x D742 mm, 123 kg
H 75.59 x W 27.55 x D 29.21", 123 kg
- Maximum capacity 170 bottles (0.75 L.) - 130 direct accessible and 40 bottles in bulk storage
- Gross volume 593 liters / Net capacity 516 liters
- Body material: stainless steel, foliation in colours possible
- Door: UV resistant, metallized insulation glass (tainted), stainless steel frame, lockable
- Door closed with SoftSystem closing dampion
- Solid Aluminum handle
- Door hinge right (reversible)
- Magnetic door seal (exchangeable)
- Hidden door hinge with opening limit
- Freestanding or to built into the wall (with bar spacer + 35 mm / 1,38")
- Automatic defroster incl. condensation water vaporizer
- Energy efficiency class: G
- Energy consumption per year: 191 kWh / per 24 hours: 0,523 kWh
- Climatic class: SN/ST
- Voltage 220 – 240V ~/1.0A, Frequency 50Hz
- Noise level 38 dB(A)
- Coolant: R600a

Xi Accessories

Xi Cuvee drawer
13x0.75 l / 9x1.5 l single bottles

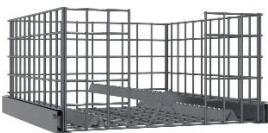

Xi Gusto drawer
13x0.75 l / 9x1.5 l open bottles
